EXPERIENCE

RAZORPAY | Senior Frontend Engineer
Aug 2021 – Current, Remote

- → Implemented **Progressive Canary Analysis & Rollout of GraphQL server** with automated zero-touch rollbacks, and 10+ deployment pipelines.
- → **Optimised CI build times** of iOS app reducing it by 20% and reduced the app size with it as well.
- → Led the successful **major version migration** of apollo-server, NodeJS v18 & Rover CLI which is used by our three client apps. **Improved DX** by adding a GraphQL Schema Change Summary in every PR.
- → **75% reduction in android build times** by making an architectural modification, saving up to crucial 90mins of build hours in a month, for a single developer.
- → **Saved 8m of developer's time per commit** by fixing an issue with deployment of our GraphQL service in stage environment.
- → Responded to a sensitive security incident with our CI-CD tool in a close span of the incident reported to resolution in just 2 days, for such a complex task.
- → Owned the development of new hero payment product Payment Handle end to end which became first-touch transaction product **leading by 78.06%**.
- → Implemented QR Code as a payment acceptance method in the mobile app from scratch, **without any direct involvement** of Product & Design.
- → Rolled out and managed various major releases of our mobile app as a **Release Champion** on both Android & iOS platforms.
- → Wrote the tech spec for an Event Delight framework & implemented in the app which got **appreciated across leadership & design**.

FIRSTCRY | Software Developer
March 2020 – August 2021, Remote

- → Single handedly built Polls feature with multiple poll templates in FirstCry Parenting.
- → Optimised homepage render time & performance of Shopping section.
- → Implemented universal search in FirstCry Parenting.
- → Built digital products listing for CPID pages.

PROJECTS

SCRIPTIFIED
2021 | NextJS, TailwindCSS, React, TypeScript, Strapi, Buttondown

- → A progressive web app to publish our weekly newsletters on React and JavaScript.

AWARDS & ACHIEVEMENTS

- → **5x Autonomy & Ownership Award** - for delivering various critical projects at Razorpay with excellent communication & coordination with stakeholders.
- → **1x Challenging the Status Quo Award** - for leading the research & implementation of an initiative to achieve feature parity of Razorpay Web Dashboard & the Razorpay Mobile App.
- → **2nd Prize worldwide in Care.Card UX Contest 2018** - a 55 days React Native challenge where our team won in "How Are You Feeling Today" category.
